ABOUT ESE

The European School of Economics, founded by a man with a dream, now has centers over three continents and in the world's major cities: London, Rome, Milan, Florence and Madrid.

The College is a privately funded institution, providing Undergraduate, Post-graduate and Executive programmes focused on guiding students towards self-discovery, and bringing them to the realization of their own innate qualities and uniqueness, developing each of them as leaders regardless of the field they choose to pursue.

Education today seems to be the antithesis to the classical models laid out by the ancient Greeks, in which schools encouraged the pupils to question, to participate, and before all else - to know themselves. The European School of Economics believes that the world one lives in is none other than a reflection of the inner states he lives, and that the more one knows and therefore masters himself, the more he can create a world that is pleasing for himself and others. All courses at the European School of Economics are concentrated on the individual as the most vital element.

ESE PHILOSOPHY

The world is a mere reflection of the world we live and dream internally. An individual whose aim is order and beauty cannot help but manifest this integrity in the external world. A man who loves himself and so, the world around him cannot help but create, emanate and instill order wherever he goes.

“For a man of Integrity manifestation takes place simultaneously with his Dream. Reality is whatever he dreams of, manifesting instantly before him. Without integrity, reality is also whatever you think or feel or say, but there is an apparent time lag for its manifestation. From a higher dimensional level of existence every thought is instantly manifested into reality, and polarity is just an illusion. You have to see everything as a whole - complete and perfect and know that there is nothing wrong no matter how bad or how good it may seem. Unity is your very nature and you are the very reason for everything that happens. Everything you think, feel and do is creating your whole world up to the most distant stars...”
